No Key Stage 2 Progress for 2024 & 2025

As there will be no KS2 progress for 2024 and 2025, Insight pages and Nova reports that only include progress will not be visible.

Nova reports that contain sections of progress or options to include progress indicators will continue to be available.

We would recommend copying any batch reports before editing them, so you still have an original version including progress for use in 2026

Please ensure you are regularly reviewing access, updating permissions and removing accounts where appropriate

Major Ethnicity Category Changes

According to the DfE Chinese is no longer a major ethnicity category; it is now under 'Asian'. Nexus has been updated across all areas. The new Asian category now includes:

- Asian (major)
 - Chinese (minor)
 - Hong Kong Chinese (raw)
 - Malaysian Chinese (raw)
 - Singaporean Chinese (raw)
 - Taiwanese (raw)
 - Other Chinese (raw)
- All other existing Asian minor / raw categories

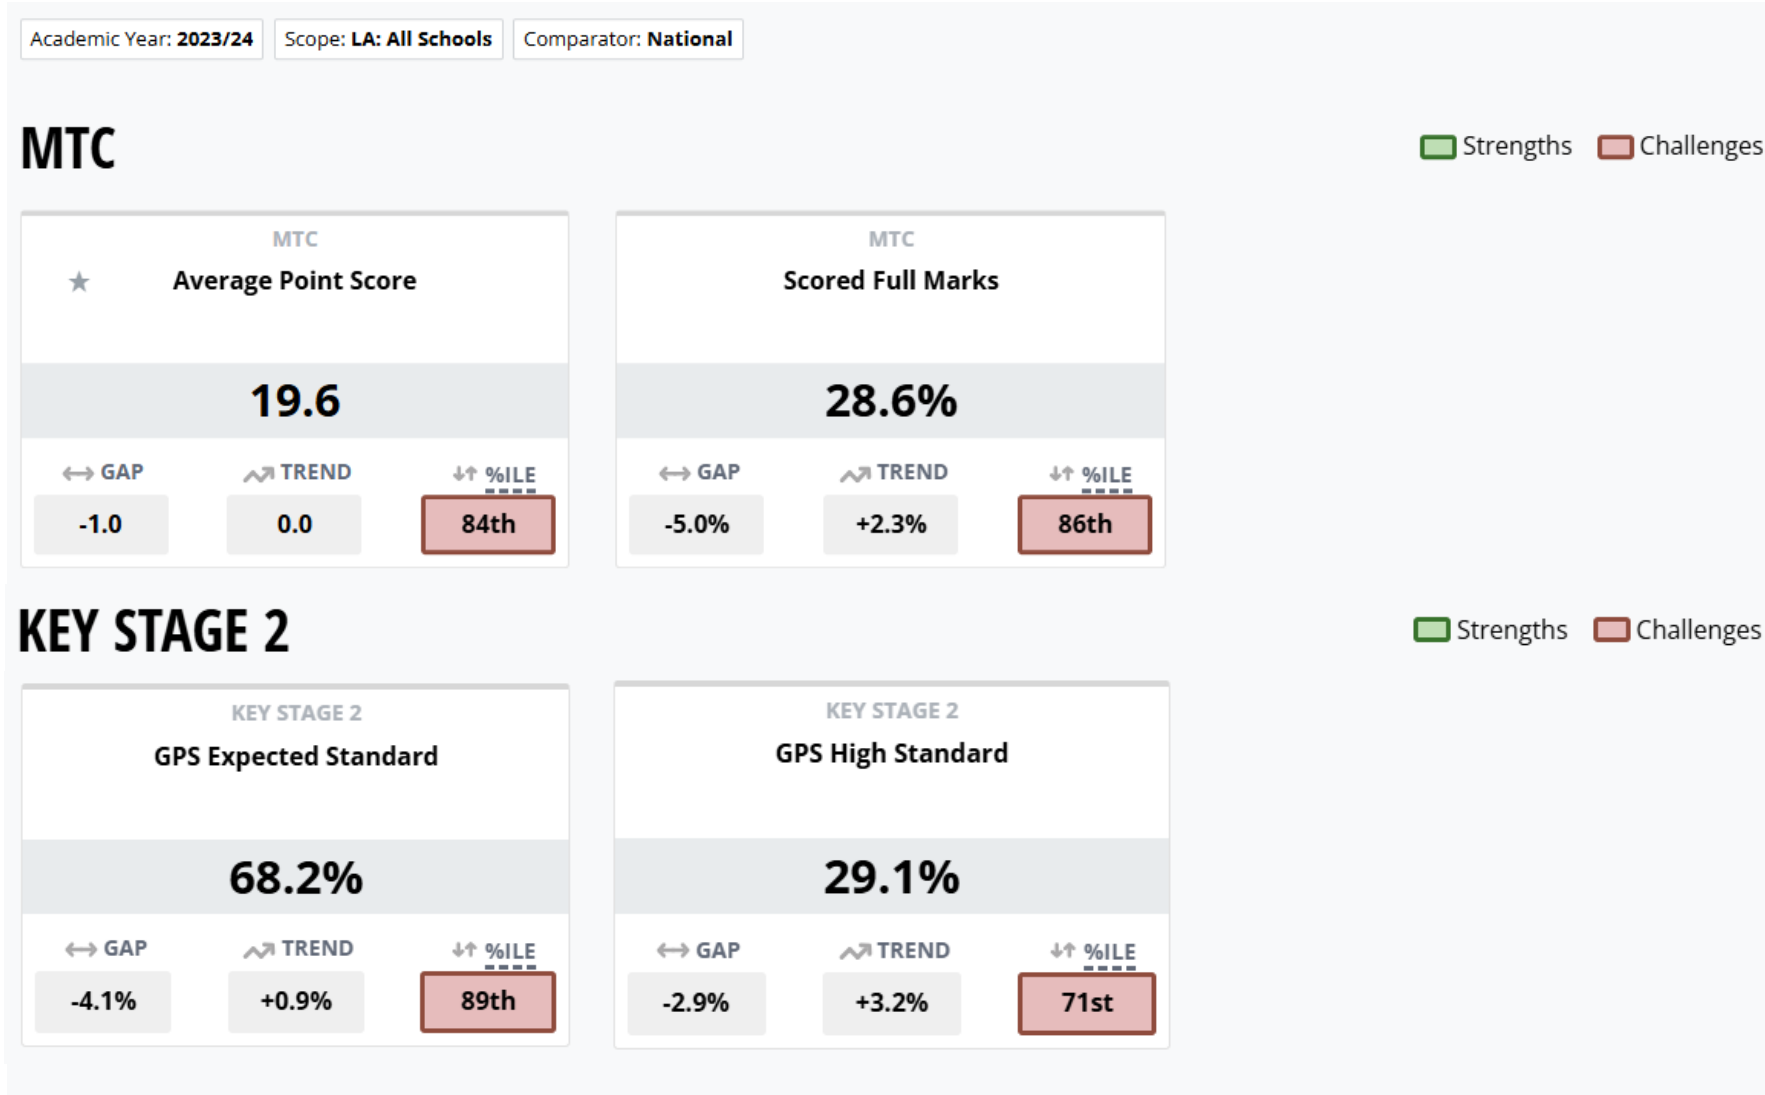

Ethnicity Code Update

Another change that the DfE has implemented in the 2024/25 data collections is the introduction of new ethnicity codes. These have been updated across Nexus and Perspective following their first collection in the Autumn School Census

- ABRI – Asian-British
- AWEL – Asian-Welsh
- BBRI – Black-British
- BWEL – Black-Welsh
- ORAB – Arab

KS4 Updates to Results Day Collections

Key Stage 4 Update - Results Day Collection

The annual collection of KS4 exam board school EDI files and/or pupil-level CSV files has been updated for 2024. The spreadsheets used by some LAs and Virtual School Headteachers have been updated to make it easier for users to enter the information required for import. Don't forget, Nova reports will be available for school analyses on results day and Insight analyses will be available the following day. For more information, see the help pages [here](#).

Key Stage 4 Update - LA Results Day Collection

This data collection was done by Google form in previous years. We have now moved the LA-level data collection into Nexus > Keypas. LAs are welcome to participate in this data collection of indicative performance indicator outcomes for all schools in the LA - in return for participation, LAs will be given access to the data shared by all other participating LAs as well as indicative national and regional stats. The analysis will be available to LAs as soon as they have imported their data - the data will be shown in Keypas grids. The analysis will not appear in Keypas grids to LAs who have not participated in the data collection. For more information, visit the help pages [here](#).

SEN2 – Update to SEN2 Details Charts

A review of the SEN2 analysis has led to the update to analysis across the page where previously historical events were included in the analysis. The following data items will now only report on incidences within the reporting calendar year:

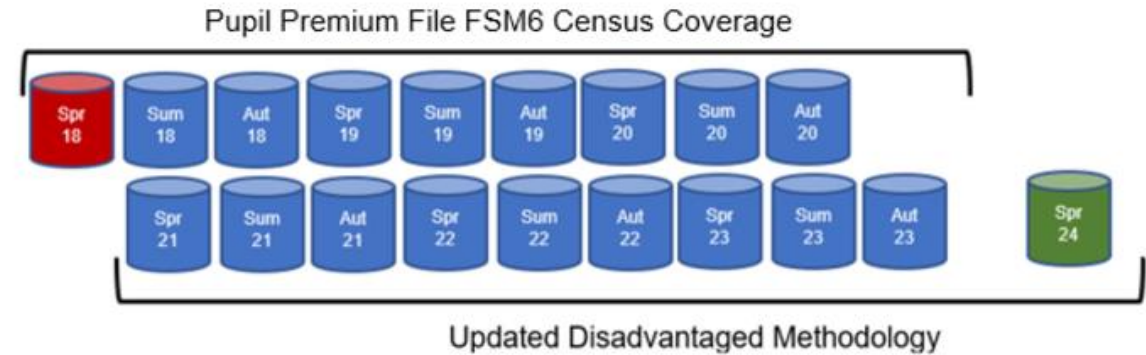

- Requests including outcomes and timeliness
- Assessments including counts, outcomes, refused and timeliness
- EHC plans including counts and timeliness for both with and without exceptions

All analysis for these data areas on the SEN2 Cohort page is now expected to reflect the same as the DfE analysis. If you find any edge cases in your local authority, please let Nexus Support know on nexussupport@angelsolutions.co.uk with as much detail as possible so that we can investigate and resolve as quickly as possible.

Pupil Premium Update

- ◆ The Pupil Premium file will be appended with Spring Census data including:
 - ◆ FSM
 - ◆ PLAA (Previously adopted)
 - ◆ Service Premium
- ◆ Disadvantaged data will be updated by the Spring Census FSM and PLAA only.
- ◆ Service Premium data (e.g. Nova reports) will be updated by the Spring Census.
- ◆ The update is not year dependent but will only update if new January Census files are imported.

Pupil Premium Update

DISADVANTAGED

81,692 of your LA's 186,848 pupils, that are considered for Pupil Premium, are classified as disadvantaged, this is 43.7% of your cohort.

This is 18.4% higher than the national average of 25.3%.

43.9% (39,969) of your female pupils are disadvantaged, 18.8% higher than the national of 25.1%. 43.6% (41,723) of your male pupils are disadvantaged, 18.1% higher than the national of 25.5%.

Disadvantaged pupils contribute £98,905,465 to the budget of your LA in disadvantaged funding.

This equates to an average of £241,232.84 per school in your LA.

You can find more information on disadvantaged (Pupil Premium) funding [here](#)

Please note: Finance figures are based on the Pupil Premium file import, and as such do not include any spring census updates.

Lack of Data due to Covid

As there will be no KS4 progress for 2025 and 2026, Insight pages and Nova reports that only include progress will not be visible.

Nova reports that contain sections of progress or options to include progress indicators will continue to be available.

We would recommend copying any batch reports before editing them, so you still have an original version including progress for use in 2027

Same approach as KS1 - KS2 for 2024

ATTENTION - DOWNTIME FOR UPCOMING SYSTEM UPDATES ✕

Please be aware of the upcoming critical system improvements that will require downtime.

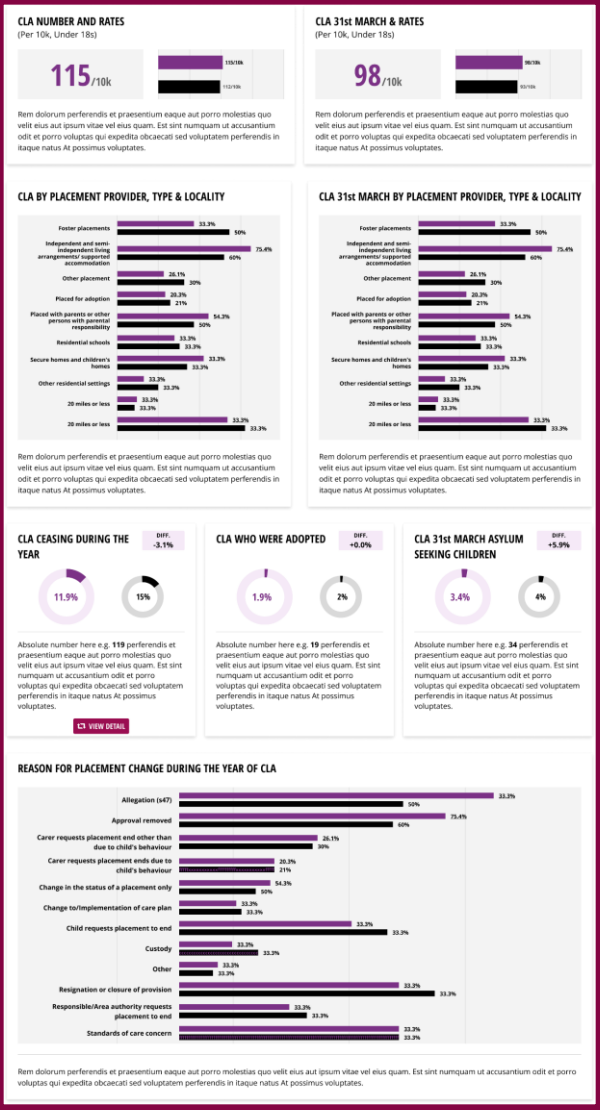

Database Migration - 12pm (Midday) Friday 16th May to 9am Monday 19th May 2025:

The system will be unavailable during this period while we perform these updates to improve Nexus performance and stability.

Please note that schools will also be unable to access Perspective and Perspective Lite during this time.

DfE Attendance Data – What's Happening

Working together to improve school attendance

Statutory guidance for maintained schools, academies, independent schools and local authorities

August 2024

Working together to improve school attendance placed significant additional duties on schools and local authorities

Opportunity with DfE Attendance Data Collection to compliment existing analysis within Nexus and Perspective Lite

Combination of 'official' Census data and early DfE attendance data

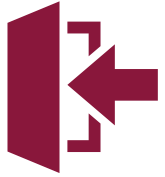

Initial releases will offer a core of reports with unique additional analysis

Focus will not just be on schools but also your current CLA, with further phases of the project extending to include your current CIN and SEN2 cohorts

Potential reduction in resource required to collate and analyse attendance data

NCER are continuing discussions with the DfE about the centralised provision of attendance data

DfE Attendance Data – What's Happening

A new import into Nexus of the DfE School Attendance CSV data download. Ability to import a basic CLA cohort for Absence matching only.

A new space within Nexus Insight and Perspective Lite dedicated to real time data.

Aggregated National, DfE Published National, Regional, Statistical Neighbour, Local Authority, School Group, Virtual School, School and Pupil Group analysis.

Pupil level analysis including CLA data for out of area pupils.

DfE Attendance Data – What Next

NCER will populate this new analysis using the ‘end of 20242025’ full academic year file before encouraging all Local Authorities to start regularly downloading and importing their weekly DfE attendance data file from September 2025

Nexus Permissions Review

Permission Migration

It will be necessary to modify some user permissions as we combine some permissions and simplify their application. To this extent we will adopt the following rules:

1. If a user has existing pupil level permissions in one area, that pupil level access will be retained and the user will gain access to that pupil level data in any module they have access to e.g. a user has pupil level access in Nova, but not Insight will gain Insight pupil level access.
2. If a user has only some of a new group permission in the Admin section turned on, that group permission will default to off, and the LA admin will be informed to a judgement on what is most suitable.
3. For non admin group permissions such as the school permissions, if a user has any tab turned on the new grouped permission will be set to on.
